THE POWERS CASE.

Clerk Busy Preparing the Record For the Court of Appeals.

The arduous labor of making a transcript of the record of proceedings in the Caleb Powers trial is still going on at Georgetown.

The Clerk of the Scott County Court will probably consume the greater part of his time between now and November 5th, which has been allotted to the attorneys of the defense, to complete this work.

The record will amount to between 3,500 and 4,000 pages of typewritten matter.

After this transcript has been filed with the Clerk of the Court of Appeals, the Court will set it on the docket and ten days later will be appointed for hearing. Then it will be decided whether or not Caleb Powers will be given a new trial.

A Louisville attorney was asked his opinion about the inquest of the Court of Appeals refusing to grant a new trial for Powers the case could be taken to the United States Supreme Court. He replied that he believed it could.

Question Answered.

Yes, August Flower will have the largest sale of any medicine in the civilized world. You and your grandchildren never thought of using anything else for indigestion or biliousness. Doctors were scarce, and they seldom read of Appendicitis, Nervous Prostration or Heart Failure, etc. They used the action of the bowels to cure the system and stop fermentation of undigested food, regulate the action of the system, and that is all they took when feeling ill and had no headache. You only need a few drops of Green's August Flower in liquid form, to make you satisfied there is nothing superior to the matter with you. For sale by J. C. Wood.
